

HUNT. FISH. LIVE.

Seriously Outdoors Newsletter

January 2019

Welcome to our first newsletter for 2020. Crikey where have the years gone???

This year certainly will present some challenges for rural and city folk alike. I have just read that our Prime minister has announced the general election will be on the 19th of September. I think this is going to be a hotly contested election with some major issues to be dealt with that will impact on us all. So, if the current government doesn't listen to the rural communities about the waterways and sustainable land use then New Zealand's food production could be at risk. We will also await the recommendations and the outcome of the Royal Commission into the Christchurch Mosque attack and the recommendations from the Select committee with regard to changing the firearms laws. These two things are so intertwined but the government is hell bent on punishing all the legal firearms owners and now look at the Gangs running wild and shooting up cities. Has the Buy Back scheme made us safer? NO! NOT IN ANY WAY, SHAPE OR FORM. Time will tell us if it was right or way wrong. I suspect the latter.

So moving forward into 2020 the Roar is approaching so it is time to start carrying out some Reconnaissance trips, putting out a game camera on a water hole and trying to find a likely stag or two. It certainly doesn't mean they will stay there through the Roar but some info is better than going in blind. Doing some prep on your clothing, camping gear, food and, of course, making sure your rifle is zeroed in so it is a clean kill on the stag if you get lucky enough to take a shot. So good luck to all deer stalkers, keep the wind in your face and wear your blaze orange gear and if in doubt don't shoot.

We also have some good news for Hunters as we have taken up a SIG SAUER optics agency so over the next month or two we will get some of the scopes and range finders in store. Check out the New Sierra 3 hunting BDX scopes and the Kilo 1800BDX range finders....great technology at a very good price.

Ok enough from me, Take care out there and enjoy our great country and the friendship of a good kiwi mate. Cheers Ken.

Phone Call By a Traveling Business Man

I checked into a hotel on a business trip and I was a bit lonely so I thought I'd get me one of those girls you see advertised in phone booths.

I phoned one called Erogeonique, lovely girl, bending over in the photo, beautiful.

So I pick up the card and I call the number.

"Hello?" the woman says.

"Hi, I hear you do massage and I'd like you to come to my room and give me a massage. No...wait, I want sex... I want it hard, fast and now. I'm talking kinky, the whole night, you name it we'll do it.

Bring implements, bring toys... do the lot, all night, tie me up, cover me in anything. Now how does that sound.?

She says, "that sounds fantastic... But for an outside line you press 9."
