

# HUNT. FISH. LIVE.

Seriously Outdoors Newsletter

July 2019

Welcome to our July Newsletter.

Well, the buyback figures for the prohibited firearms are out now and, oh my goodness, what a botch up that appears to be. I've read an article, written by a member of the committee that formulated the prices, and he was saying that what left that rushed meeting is not what has been published.

All I can say is that if COLFO (council of licensed firearm owners) takes the legal challenge that they are talking about to the high court, this could grind the whole process to a halt. Maybe some common sense might prevail but the older I get there seems to be far less common sense and more rules and regulations. God forbid; perhaps I am becoming a grumpy old man. And to continue my gripes.....

Recently IRD changed the PAYE system that we have been working with for along time with no problems. It is supposed to make business easier and take less time. Well guess what? It isn't. It takes longer, costs more in time and they have already messed up our kiwi saver payments.

Do any of the people in government departments or politicians actually live in the REAL WORLD ??? Stay warm all, we are past the shortest day now so we are on the up. Cheers KEN.

I'm not sure why this picture and caption tickled my funny bone so much.....

*You know, there are some things that you just never think of ..... like Mt. Rushmore from the Canadian side.*
